## FIV TOUCH APP

The FIV TOUCH App allows you to remotely control the thermostat using your smartphone or tablet. In detail:

- turn on and off the air conditioning system;
- create and modify weekly programs;
- change the values of the operating temperatures;
- simplify programming thanks to the copy-paste of a program over several days;
- set some holiday days in which the system remains off;
- configure e-mail address to receive notifications when the measured temperature has exceeded a minimum or maximum value that can be set;
- block operation from the keyboard ("local operation block"), allowing the device to be controlled only from the App itself.

Free FIV TOUCH App available for iOS and Android systems

Compatible with Google Home and Amazon Echo
